

# ANTI-CHOICE PROJECT

*making abortion impossible to ignore or trivialize*

August 2016, Quarterly Newsletter | [antichoiceproject.com](http://antichoiceproject.com) | PO Box 5992, Bremerton, WA 98312 | [info@antichoiceproject.com](mailto:info@antichoiceproject.com)

Dear Friend of the Anti-Choice Project,

It is stunning, is it not, just how quickly the world seems to be spiraling out of control? From the advancement of ISIS and the daily headlines of new Islamic terror attacks, to the crumbling of traditional marriage in our own culture, to our crooked and incompetent government bureaucrats, to the indoctrination of Leftist ideology in our schools, to the growing hostility against all Christian morality, it would seem that this nation is in many ways on the verge of collapse.

## DNC CELEBRATES THEIR ABORTIONS

And as November 2016 draws near we are reminded of the impending disaster that a Hillary Clinton presidency would bring. Indeed, the Democratic party as a whole today not only defends, but embraces and celebrates the act of killing a child in the womb. On July 27, 2016, Ilyse Hogue, president of NARAL Pro-Choice America, took to the stage at the Democratic National Convention to explain that some years prior she aborted her first child: "I wanted a family, but it was the wrong time. I made the decision that was best for me — to have an abortion and get compassionate care at a clinic in my own community." At this point in her speech, loud cheering and applause broke out in the crowd. It is one thing to commit some grave evil and feel shame or regret; it is something else entirely to celebrate a barbaric evil like abortion.

*Democratic presidential nominee Hillary Clinton holds hands with Cecile Richards, president of Planned Parenthood Action Fund, during an event June 10, 2016 in Washington, D.C.*

And yet, Hillary Clinton may well be our next president, replacing the Supreme Court vacancy of the late Antonin Scalia and — almost certainly — one or two more justices (to say nothing of the many lower court appointments) with radical pro-abortion judges cementing *Roe v. Wade* for decades to come.

*On May 12, 2016, under the leadership of Lauren Handy, volunteers with our ACP Washington, D.C. chapter braved the cold and rain to reach high school students who desperately needed to be shown the truth about abortion.*

Year after year, polls show the country steadily growing more pro-life and supportive of restrictions on abortion, yet the Democratic party only grows more extreme on the issue. This year, the party adopted a platform which calls for a repeal of the Hyde Amendment, which prohibits the use of taxpayer funds for abortion, as well as any state or federal law which restricts a woman's "access to abortion". You will frequently see the positions of the party "evolve" as the culture moves to the left on social issues such as same-sex marriage and transgender bathrooms, but as the culture becomes more pro-life, Democrats dig their heels in the sand in order to protect their precious right to kill unborn children.

## WE MUST FIGHT ON

What has happened to this great country of ours? How could we have fallen so far in so brief a time? In the fourth century,

facing similar cultural decline, St. Augustine of Hippo offered this advice:

*“Bad times! Troublesome times! This is what people are saying. Let our lives be good and the times will be good. For we make our own times. Such as we are, such are the times. What can we do? Maybe we cannot convert masses of people to a good life. But let the few who do hear live well. Let the few who live well endure the many who live badly.”*

We must fight on and not lose heart! By our lives and our example we must speak the truth in love. We must not stand on the sidelines but engage and be a living witness, a force for good in this fallen world.

## ACP ARRIVES IN ATLANTA

In July, we launched our newest chapter in Atlanta, Georgia, under the direction of Haley Dickey! Through the continued generosity and prayers of our supporters, the truth of abortion is able to reach more people in more cities across the country. Our society remains largely complacent in the killing of unborn babies by abortion, but that is changing as the mask is removed and the ugly horror of abortion is exposed to the light of day.

*“Most people look away from abortion photos displayed in public. But no matter how quickly they turn their heads, we have gotten the picture in their heads and they will never get it out. This fundamentally changes their perception of abortion even if we don’t change every mind. Each time thereafter that they hear the word abortion, that picture will be recalled to mind.”*

*During June and July 2016 this billboard was on display in Kitsap County, WA, where it was seen more than 200,000 times per week.*

*ACP Lincoln, NE (Left & Middle) and ACP Bremerton, WA (Right) expose the true face of “Choice” at major intersections in July 2016.*
